### Full of Versatile Tools & Flexible File Formats

TurboCAD Designer is well suited for all your projects at home and the office. Use it for floor plans, mechanical parts, toy models, woodworking, furniture making, remodeling, stained glass, maps, logos, and much more!

### 2D Drafting & Detailing

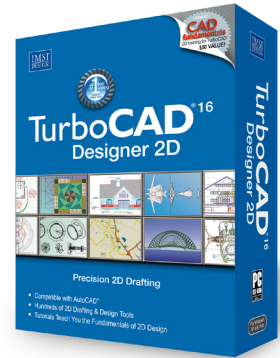

TurboCAD Designer employs a large selection of line, arc, curve, and spline tools - you've always got the right tool for the job. When used with TurboCAD's snaps, modification tools, and drawing aids you will be able to quickly draft and document your designs with no restrictions.

### Page Setup Wizard

Breeze through questions designed to create the optimal drawing space for your needs. Define your drawing size, orientation, units of measurement, printing scale, and viewpoints.

### Earth-Friendly 'GREEN' Design

TurboCAD offers a complete set of pre-drawn, eco-friendly details that you can drag & drop into your designs. You can access the Green Building Design Center for a comprehensive list of earth-friendly building & design ideas, solutions, and supplies. Dozens of links will help you locate energy wise and environment friendly doors, windows, natural lighting, and more.

## Top 5 Reasons TurboCAD is #1

- 1 Affordable CAD - More professional features per dollar than any other 2D CAD application sold.
- 2 Easy to Learn & Use - Beginner, intermediate, and advanced menu settings with context sensitive help in a familiar Windows® style interface helps you get results fast!
- 3 Complete 2D Drafting & Detailing - Packed with drawing, modifying, and dimensioning tools, so no matter the situation you've got the right tool for the job.
- 4 CAD & Graphic Compatibility - Supports 20 of the most popular industry-standard file formats, Import & Export AutoCAD® files, save to PDF and more!
- 5 Proven CAD Solution for Over 22 Years - Year after year, the industry's most versatile and consumer friendly CAD application.

## System Requirements
